COMPOSE YOUR CEILINGS WITH

**Seem® 1 Trio & Quartet**

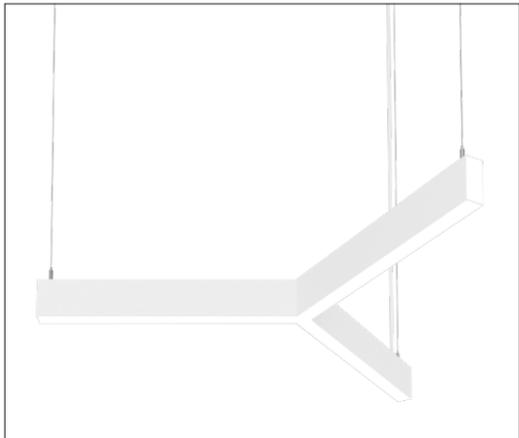

# STANDARD SEEM 1 SHAPES WITH eye-catching optical features

Seem 1 Trio and Seem 1 Quartet are statement-making luminaires that offer a fanfare of options to jazz up interiors. They harmonize with Seem 1 Family linear luminaires with a narrow, 1.5-inch nominal aperture and coordinated optical features.

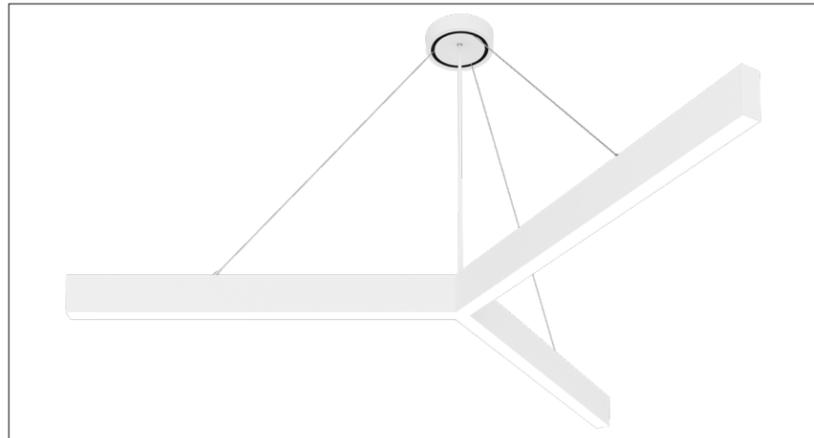

The two standard shapes, offered in 4- and 6-foot diameters, provide a counterpoint to lines of light, add rhythm to spaces, and support wayfinding. The suspended, recessed, and surface mounting options help synchronize mixed ceilings.

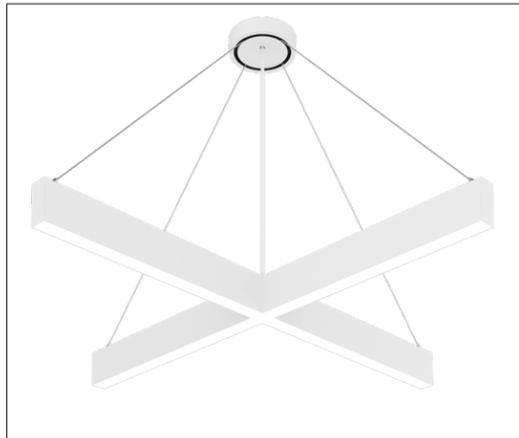

Seem 1 Trio - 4' Diameter

Seem 1 Trio - 6' Diameter

Seem 1 Quartet - 4' Diameter

Seem 1 Quartet - 6' Diameter

# A STATEMENT MAKING LUMINAIRE, solo or grouped

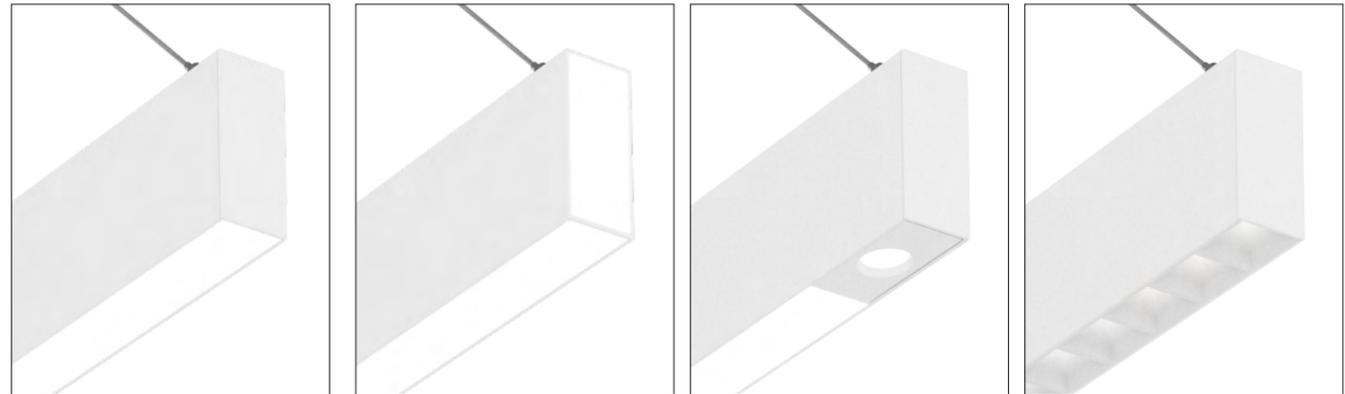

Each Seem 1 Trio or Seem 1 Quartet can be turned into a unique composition.

Integrated louver cells, point sources, and lit end caps, in addition to lensed, direct only or bidirectional illumination, are easily specified from the cut sheet.

Add black, matte white, titanium silver painted housing finishes, or the five nature-inspired finishes from The Naturals collection, as well as optional matching canopies, and each luminaire becomes a customized creation available with standard lead times.

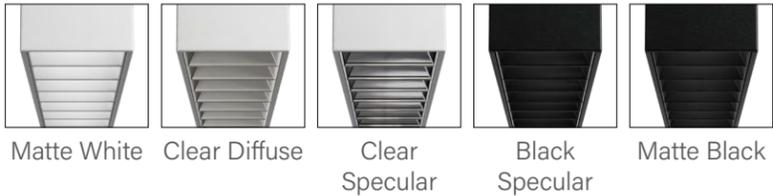

### Shielding options

Flush Lens      Lit End Caps      Point Sources      Louvers

### Louver Finishes

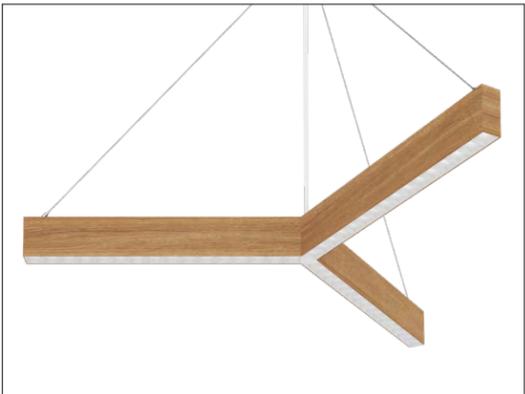

Matte White    Clear Diffuse    Clear Specular    Black Specular    Matte Black

### The Naturals

Light Oak    Grey Elm    Chestnut    Walnut    Woven Linen

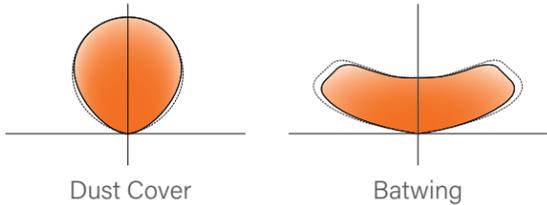

Seem 1 Trio - 4', Clear Diffuse Louver, Chestnut

# POWERFUL AMBIENT ILLUMINATION IN simple arrangements

With their unique form factors, Seem 1 Trio and Seem 1 Quartet add playfulness to the ceiling and create pools of light with high lumen outputs, ideal for open spaces and tall ceilings. The indirect illumination adds a sense of spaciousness and provides comfortable illumination with good ceiling uniformity. Deeply regressed Louvers with ID+ technology offer various beam spreads and finishes to tailor how the light is perceived and experienced; follow your inspiration to create the desired ambiance.

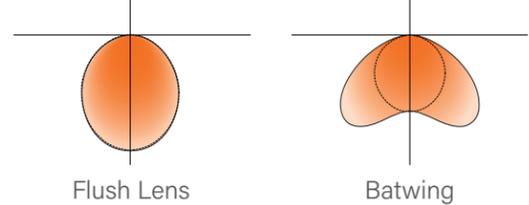

### Indirect distributions & lumen outputs

	Trio	Quartet
4'	1500 - 6750	2000 - 9000
6'	2250 - 10125	3000 - 13500

### Direct distributions & lumen outputs

	Trio	Quartet
4'	750 - 3750	1000 - 5000
6'	1125 - 5625	1500 - 7500

### Louver distributions & lumen outputs

	Trio	Quartet
4'	1500 - 6000	2000 - 8000
6'	2250 - 9000	3000 - 12000

### Point Source distributions & lumen outputs

Lumens per Point Source		
250	350	450
